DEPARTMENT
STATEMENT

The Fort Lauderdale Police Department has complete faith in the federal investigation which, to our knowledge, has not generated criminal charges against any employees of the Department.

Furthermore, the Fort Lauderdale Police Department's Office of Internal Affairs conducted an administrative investigation, inclusive of all the information available to the Department at the time, to determine if any employees violated Department policy. Numerous employees were found to have violated policy and appropriate corrective action was taken. That investigation was then submitted to the Broward State Attorney's Office for their independent review. Their review resulted in no criminal charges being levied against any employee of the Fort Lauderdale Police Department.

Obviously, if any specific allegations of criminal or administrative misconduct, that we were previously unaware of, are brought to the attention of the Department, a thorough and objective investigation will commence.
